

UnboundEd

Curriculum Adoption

Choosing the right curriculum is one of the most consequential decisions a district can make. We're here to make sure you get it right — with a rigorous, collaborative, and research-backed process from start to finish.

“ The UnboundEd Curriculum Adoption Team has been a valuable resource to support our planning of our pilot process, determining our district vision and goals around mathematics instruction and ideas for ensuring equitable access for all staff and students when it comes to high-quality materials. The team is very knowledgeable and helps keep you and your district team on track to go through this process seamlessly. ”

— Danielle Brever, Vallejo City USD, TK–12 Math, Science, Health and PE Coordinator; Professional Learning

Five Phases of Successful Materials Adoptions

The Right Materials. The Right Process. Lasting Impact.

Student success starts with selecting the right instructional materials — and that takes more than a checklist. UnboundEd offers a comprehensive, research-based adoption process tailored to your district's unique context, priorities, and students.

We partner with districts to lead a strong and collaborative adoption process anchored in research-based best practices, aligned to your local context, and grounded in the steadfast belief that all students deserve access to high-quality instructional materials (HQIM). From vision-setting through final selection, we ensure your process is rigorous, inclusive, and built to last.

OUR IMPACT IN ACTION

UnboundEd + Vallejo City Unified School District

UnboundEd partnered with Vallejo City USD to lead an effective and collaborative math curriculum adoption — centering the voices of students, families, and teachers throughout. The result: a strong district instructional vision, a comprehensive needs assessment, and a rubric built to their specific priorities.

We offer a variety of levels of support for your adoption process, including:

1-on-1 Adoption Support

We partner with you and your District Adoption Team through every phase of the adoption journey, from vision setting through selection.

Single-Day Workshops

Options include rubric development, vision setting, data analysis to identify local priorities, and evaluating your final options to make a recommendation.

Adoption Foundations

Mini-Course - *Coming soon!*

A virtual, asynchronous course that guides you and your team through phases one through four of the adoption process.

Connect with us to learn how we can partner with you for curriculum adoption success.
