

UnboundEd

In-Service Workshops

Unlock the Power of GLEAM® In-Service Learning Workshops for K–12 Educators

UnboundEd's dynamic, hands-on workshops build educator capacity by focusing on timeless, cross-disciplinary instructional moves that drive effective instruction, rigor, and student empowerment.

Step into a transformational professional learning workshop designed to equip K–12 teachers, coaches, and leaders with high-leverage instructional practices anchored in grade-level, engaging, affirming, and meaningful — GLEAM — instruction.

UnboundEd's In-Service Learning Workshops equip educators with critical skill-based practices, including:

- **Scaffolding With Purpose:** Design supports that maintain cognitive demand while ensuring access for all learners.
- **Authentic Learning:** Connect classroom content to real-world problems and culturally relevant contexts.
- **Discourse and Debate:** Facilitate meaningful academic conversations that build knowledge, agency, and critical thinking.
- **Asset-Based Instruction:** Center student funds of knowledge, language, and lived experiences to affirm and uplift every learner.
- **Metacognition and Visible Thinking:** Make student thinking visible and foster reflective learners who own their process.

Who should attend UnboundEd's In-Service Workshops?

UnboundEd's In-Service Workshops are for K–12 teachers, instructional coaches, and school or district leaders committed to delivering effective, grade-level instruction.

Each workshop is three hours total. Choose any two 3-hour workshops for a full day of professional learning. Available in-person or virtually.

GLEAM ELA Instruction Workshops

- GLEAMing Insight: Unpacking Complex Text with Confidence
- Entry Points With a GLEAM Mindset: Making Complex Text Accessible
- Asking Better Questions: Affirming and Meaningful Learning With Text-Dependent Questions
- Crafting an Effective ELA Instructional Vision
- Observing for GLEAM ELA Instruction
- Unlocking Language: Building Strong Readers Through Syntax

GLEAM Math Instruction Workshops

- Beyond Remediation: Unlocking Grade-Level Math
- Talk the Talk: Sparking Rich Math Conversations
- Real-World Math Tasks: Igniting Purpose in Your Lessons
- Cultivating Math Confidence: Building Affirming Classrooms
- Unleashing Math Thinkers: Student-Centered Classrooms with the Standards for Mathematical Practice (SMPs)
- Beyond the Algorithm: Building Mathematical Understanding Through Multiple Representations
- Talk the Talk: Sparking Rich Math Conversations (Part 2)

Leading for GLEAM Instruction Workshops

- The Calm in the Storm: Leading With Emotional Intelligence
- Beyond Burnout: Creating Sustainable Systems for Teacher Growth & Retention
- From Evaluation to Elevation: Feedback That Transforms
- Building Data-Driven Instructional Systems That Scale
- Building Capacity From Within: Scaling Impact Through Others
- The Strategic Edge: Aligning Resources With Results

Planning for GLEAM Instruction Workshops

- Prioritize With Purpose: Planning and Teaching What Matters Most
- Scaffold With Intention: Make the Complex Accessible
- Center the Work Around Students: Design for Voice, Choice, and Agency
- Teach Who's in Front of You: Planning With Students' Funds of Knowledge
- Make Struggle Work: Structure Lessons That Build Student Thinking
- Bring the Work to Life: Add Meaningful, Real-World Connections to Your Lessons
- Beyond the Last Box: Making Formative Assessment Matter in Your Lessons
- Start Strong: Unpack the Unit, Plan With Purpose

Connect with our partnerships team to learn more.

Together, we can ensure every student thrives. It starts with building a transformative vision tailored to your unique needs. **Let's talk.**
